

**513 NPA (Ohio)  
Final Jeopardy Procedures**

***NANPA has declared this NPA to be in a jeopardy situation. The final Jeopardy Procedures have been implemented and codes will be rationed as described below. The final Jeopardy Procedures have been revised based on industry consensus in a Jeopardy review meeting held on May 16, 2022, and codes will be rationed as described below.***

**Lottery Procedures:**

Two (2) requests per OCN can be submitted each month.

If two (2) Part 1 requests are submitted within the submission timeframe that month then each request receives a CO code. Any part of the base allocation of two (2) that is not assigned in a rationing month **will** carryover for assignment in the following month.

If more than two (2) Part 1 requests are submitted within the submission timeframe that month, the codes will be assigned via a lottery to take place no later than the 10th business day of the month. All requests not assigned via the lottery will be denied. Code requests that do not receive a code allocation in the current month allocation will be denied and the applicant must submit a new application request for future month’s allocation.
