

209 NPA (California) Final Jeopardy Procedures

NANPA has declared this NPA to be in a Jeopardy situation. The final Jeopardy Procedures have been revised based on industry consensus in a jeopardy review meeting held on May 25, 2022, and codes will be rationed as described below.

Lottery Procedures:

All CO Code applications, pooling and non-pooled, will be entered in the monthly lottery when the Part 1 request is submitted within the submission timeframe. The monthly allocation is set at two (2) codes per month.

Two (2) requests per OCN can be submitted each month. If two (2) or less Part 1 requests are submitted within the submission timeframe that month, then each request receives a CO code. Any part of the base allocation of two (2) that is not assigned in a rationing month **will** carryover for assignment in the following month. If more than two Part 1 requests are submitted within the submission timeframe that month, the codes will be assigned via a lottery to take place no later than the 10th business day of the month. Code requests that do not receive a code allocation in the current month will be denied and the applicant must submit a new application request for future month's allocation.
