

Number: PL- 405
Date: June 25, 2010
From: Canadian Numbering Administrator (CNA)
Subject: NPA 873 to Overlay NPA 819 (Western Québec, Canada)
Related Previous Planning Letters: None

In Telecom Decisions CRTC 2010-94 and CRTC 2010-94-1, dated 17 February 2010 and 18 February 2010 respectively, the Canadian Radio-television and Telecommunications Commission (CRTC) directed that relief for Québec area code 819 be provided through a distributed overlay of a new area code 873 starting 1 June 2013.

New area code 873 has been assigned by the North American Numbering Plan Administrator and will be implemented on the Relief Date of 1 June 2013 as a distributed overlay over the geographic area of western Québec currently served by the 819 area code. The area served by NPA code 819 and the new 873 area code includes the major communities of Hull, Drummondville, Gatineau, Shawinigan, Sherbrooke, Trois Rivières, Val D'Or and Victoriaville. A map showing the location of the area served by area code 819, and a list of the 211 Exchange Areas in the area are attached to this letter.

When the new 873 area code is introduced, no changes will take place in the dialling plans in the area that is served by area code 819 and will be served by area code 873. The dialling plan in this area will be:

- all local calls will be dialled with 10 digits
- toll and alternatively billed calls will be dialled with 10 digits after the appropriate prefix digit(s)

All international and domestic Telecommunications Service Providers (TSPs) should activate the new 873 area code throughout their networks by the start date for network testing (1 March 2013).

The following test numbers for the new area code 873 will be made available effective 1 March 2013. Routing of calls to area code 873 can be verified by dialling the 8378 (TEST) numbers which do not provide answer supervision. Billing of calls to area code 873 can be verified by dialling the 2455 (BILL) numbers which provide answer supervision.

Test Number	Exchange Area (Rate Center)	Carrier
873-410-8378	Trois Rivières	TELUS Quebec
873-410-2455	Trois Rivières	TELUS Quebec
873-510-8378	Ottawa/Hull	Rogers Cable Communications Inc.
873-510-2455	Ottawa/Hull	Rogers Cable Communications Inc.
873-610-8378	Ottawa/Hull	Bell Canada
873-610-2455	Ottawa/Hull	Bell Canada
873-710-8378	Val d'Or	Telebec
873-710-2455	Val d'Or	Telebec
873-810-8378	Ottawa/Hull	MTS Allstream
873-810-2455	Ottawa/Hull	MTS Allstream

Calls successfully completed to test numbers will receive the following announcement:

“La communication a été établie avec succès au numéro de vérification de l'indicatif régional 873, à [NOM DUTÉLÉCOMMUNICATEUR], Québec, Canada.
You have successfully completed a call to the 873 area code test number at [CARRIER NAME] in Québec, Canada.”

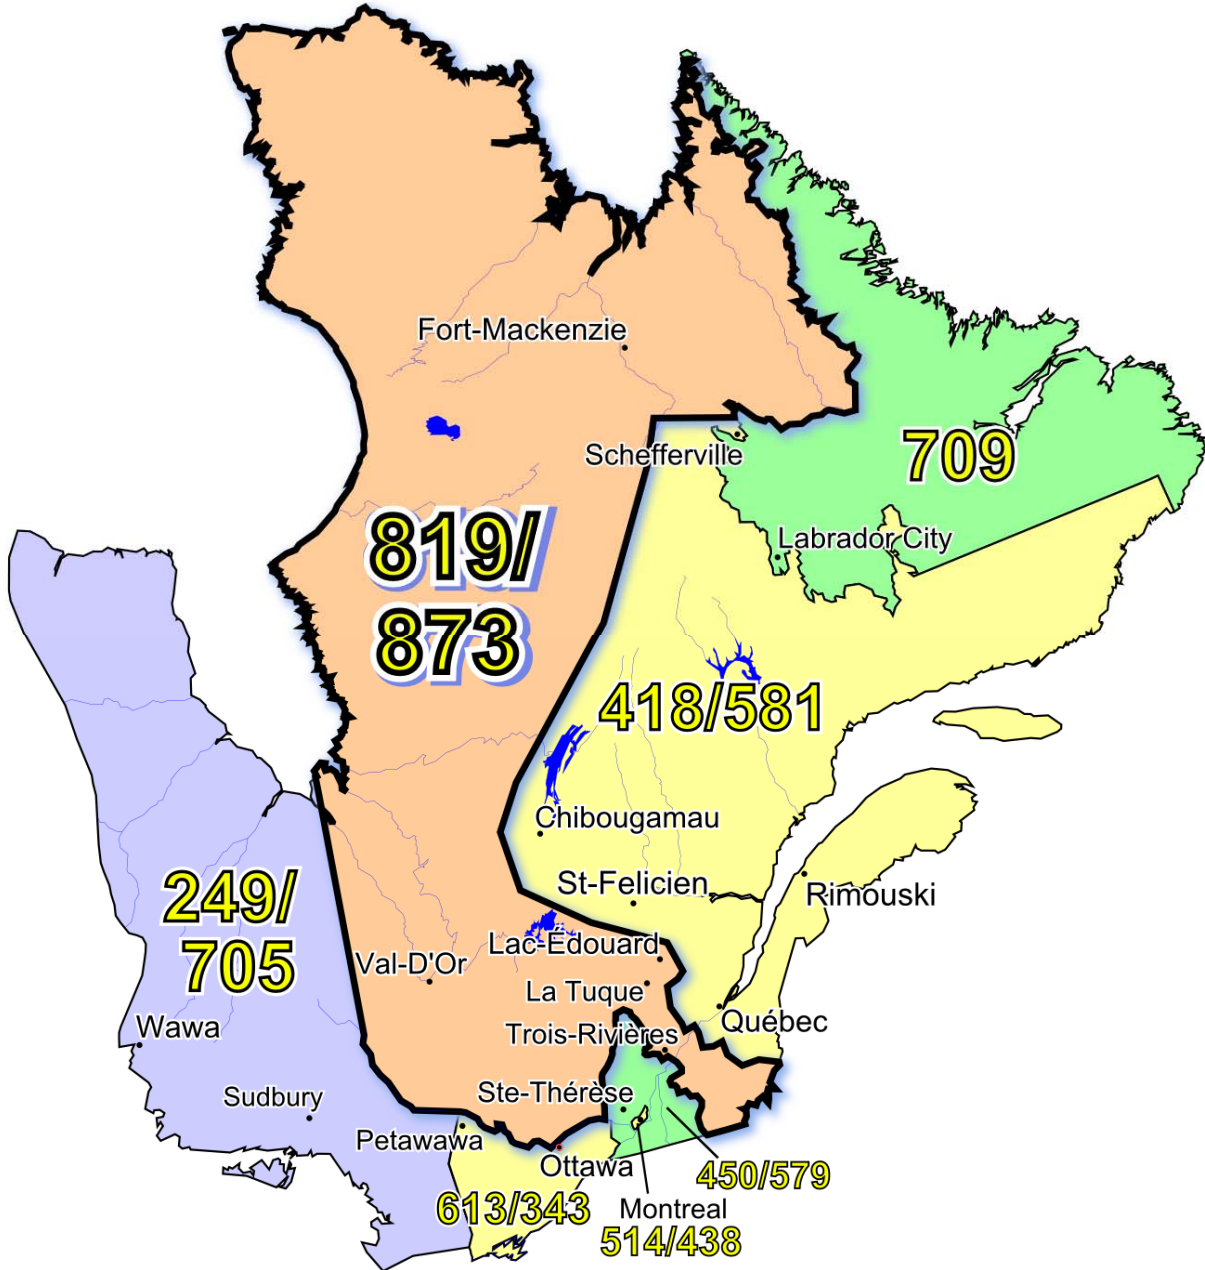

The disconnection dates for the Test numbers will be between 1 July 2013 and 1 August 2013.

Central Office (NXX) Codes within area code 873 may be assigned to TSPs starting from 1 December 2012, but cannot be activated in the PSTN prior to the Relief Date of 1 June 2013.

General questions about this relief activity may be directed to Glenn Pilley or Suresh Khare, of the Canadian Numbering Administrator (CNA), at 613-563-7242. Specific questions related to telecommunications services and network routing should be directed to the appropriate TSP.
