

Number: PL-515
Date: April 16, 2018
From: Canadian Numbering Administrator (CNA)
Subject: NPA 672 to Overlay NPA 236/250/604/778 (British Columbia, Canada)
Related Previous Planning Letters: None

In Telecom Decision CRTC 2018-58, dated 14 February 2018, the Canadian Radio-television and Telecommunications Commission (CRTC) directed that relief for the British Columbia area code 236/250/604/778 complex be provided through a distributed overlay using new area code 672 effective 4 May 2019.

The new area code 672 has been assigned by the North American Numbering Plan Administrator (NANPA) and will be implemented on the relief date of 4 May 2019 as a distributed overlay over the geographic area of the province of British Columbia. The area code 236/250/604/778 complex consists of 311 Exchange Areas. The following table provides a breakdown of the number of Exchange Areas that are currently served by four NPA Codes.

NPA Code	Geographic Area Served	# Exchange Areas
236	All of British Columbia	311
250	All of British Columbia except the Lower Mainland	268
604	Lower Mainland	43
778	All of British Columbia	311

A map showing the location of the area served by the NPA 236/250/604/778 complex, and a list of the 311 Exchange Areas are attached to this letter.

When the new 672 NPA is introduced, no changes will take place in the dialling plans in the area that is served by the NPA 236/250/604/778 complex and that will be served by NPA 672. The dialling plan in this area will continue to be:

- All local calls, including Extended Area Service calls, originating within the overlay area and neighbouring NPAs must be dialled with 10 digits; i.e., NPA-NXX-XXXX.
- Toll and alternatively billed calls originating within the overlay area will continue to be dialled with 10 digits after the appropriate prefix digit(s).

All international and domestic Telecommunications Service Providers (TSPs) should ensure that the new 672 NPA is activated throughout their networks by 1 February 2019 which is the start date for network testing.

The following test numbers for the new NPA 672 will be made available effective 1 February 2019. Routing of calls to area code 672 can be verified by dialing the 8378 (TEST) numbers which do not provide answer supervision. Billing of calls to area code 672 can be verified by dialing the 2455 (BILL) numbers which provide answer supervision.

Test Number	Exchange Area (Rate Center)	Carrier
672-610-8378 and -2455	Vancouver	TELUS
672-710-8378 and -2455	Victoria	TELUS
672-810-8378 and -2455	Kelowna	TELUS
672-580-8378 and -2455	Kelowna	TELUS Mobility
672-999-8378 and -2455	Vancouver	TELUS Mobility

Calls successfully completed to test numbers will receive the following announcement:

You have successfully completed a call to the 672 Area Code Test Number at [CARRIER NAME] in British Columbia, Canada.

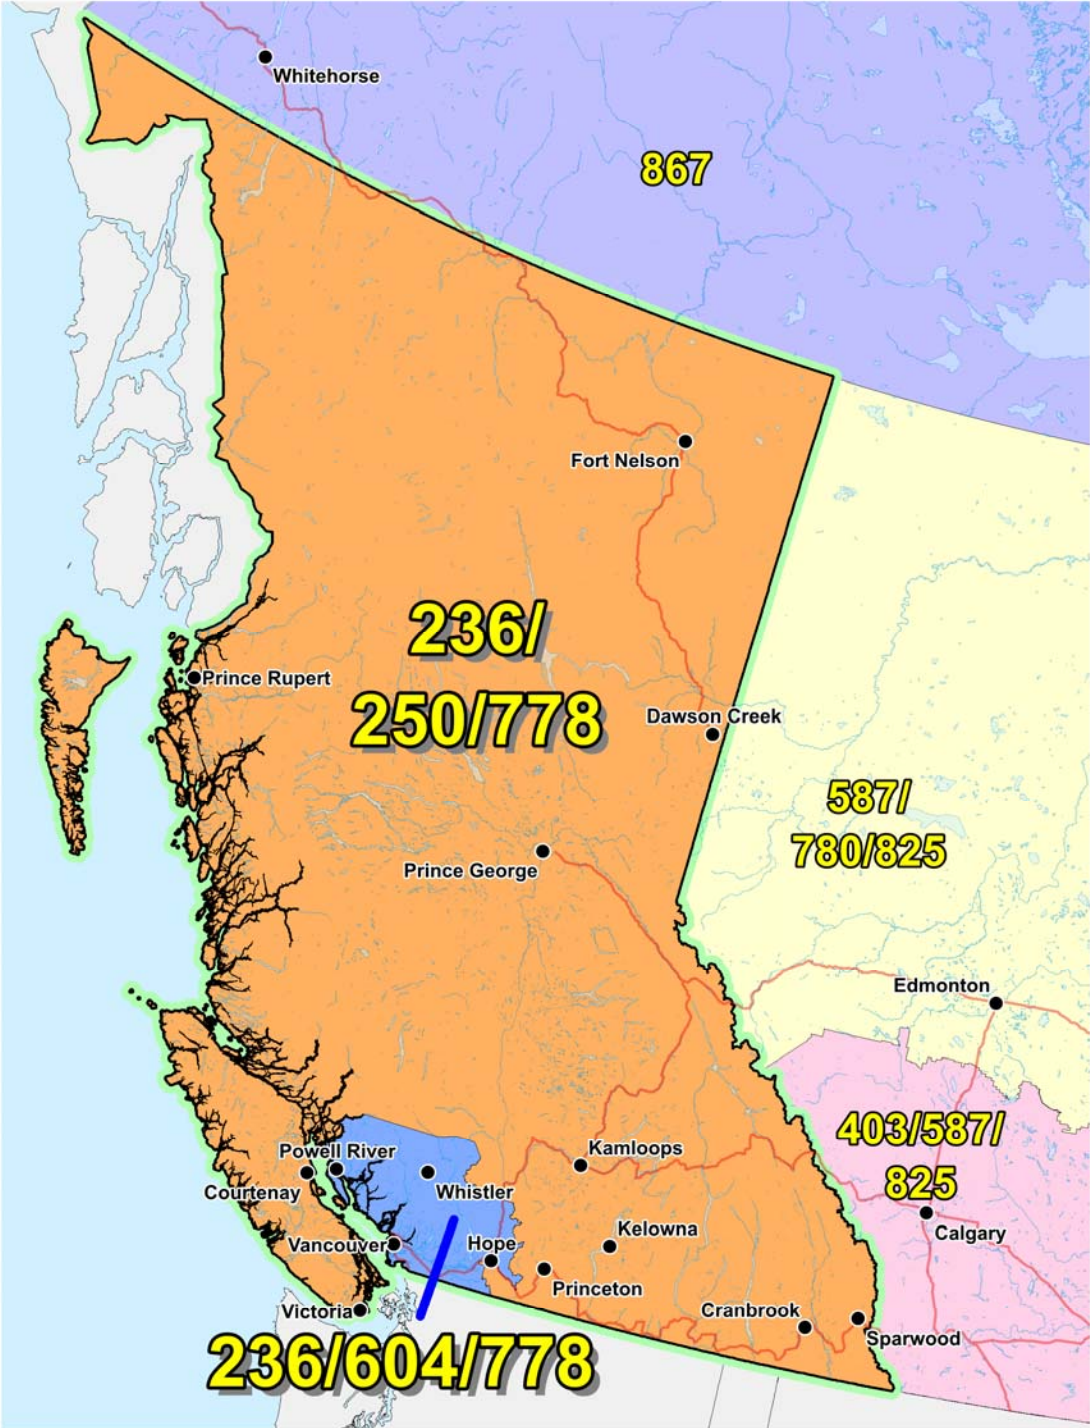

The disconnection dates for the test numbers will be between 3 June 2019 and 3 July 2019.

Central Office (NXX) Codes within NPA 672 may be assigned to TSPs starting from 4 November 2018, but cannot be activated in the PSTN prior to the Relief Date of 4 May 2019.

General questions about this relief activity may be directed to Glen Brown or Suresh Khare, of the Canadian Numbering Administrator (CNA), at 613-563-7242. Specific questions related to telecommunications services and network routing should be directed to the appropriate TSP.
