Safety Valve Process – “Quick Sheet”

Report Date: 3/15/18

State	Notes
OK	Process is generally informal, initiated by an email or letter requesting safety valve action. Request must have supporting details as to denial, reason for additional resources, and anything else that might support request (customer letter, etc.). Usually processed within 3-5 days, but might be as long as ten days. If additional information is needed, this request is usually transmitted to the SP within a day or two after receipt of request.
NH	Service provider must submit a petition, which becomes a docketed item. Typical number of days does not include date telephone call was made or additional time required to obtain all necessary information. Staff issues a memo and draft letter (approving or disapproving) to the Commissioners after Division Director approval. Safety valve petitions have not to date requested expedited 10-day treatment per FCC NRO.
NE	Nebraska processes Safety Valve requests administratively but does obtain Commission approval at regularly scheduled meetings (usually weekly on Tuesday). Agenda is set three days before meeting date therefore, approval time normally would range from 3-8 business days.
GA	<p>The Georgia Public Service Commission meets to render decisions on cases on the 1st and 3rd Tuesday of each month. Therefore, the filing date and completeness of each filing is critical in determining how soon the petition is acted upon.</p> <p>The service provider can notify the contact person(s) that a request is forthcoming via telephone or email. However, according the GA PSC filing requirements, the service provider must also file with the Executive Secretary and the Consumer’s Utility Counsel Division. (To review the filing requirements, go to the GA PSC’s web site www.psc.state.ga.us, click on “PSC Calendar, Agendas, and Filing Procedures”.)</p>
KY	<p>Upon filing of a petition to override a NANPA/PA decision, the Commission staff will process the request and if sufficient grounds exist for a waiver to be granted, staff will issue a recommended Order for the Commission’s consideration. The petition is reviewed pursuant to 47 CFR 52.15 and there are no state rules/regulations pertaining specifically to such petitions.</p> <p>There are no established procedural schedules for waiver requests but Commission staff always attempts to process such filings in an expedited manner.</p>
MN	Although no commission order is required, each request is formally docketed.
NJ	Safety Valve waiver requests are handled administratively and at the staff level. A service provider may however appeal to the Board any adverse staff action.
SC	A directive may serve as an order if it contains an order number and note that it serves as an order.

These are informal comments only and should not be considered to be legal requirements or guidelines. Please contact each state commission to clarify actual process.

Safety Valve Process – “Quick Sheet”

Report Date: 3/15/18

Legend Table A:

- 1 State Jurisdiction abbreviation (i.e., NY)
- 2 Name and telephone number of a contact at the state regulatory authority for waiver information.
- 3 Does the state regulatory authority handle safety valve waiver requests? (Y = yes or N = no)
- 4 Is a waiver decision administrative (A) or is an order (O) required?
- 5 How many days (XX) after requests are submitted is a decision typically made?
- 6 Can the waiver request be initiated using an email (E) and/or a telephone (T) call?
(Answer E/T if both are acceptable. Answer “Neither” if email and telephone are not accepted)
- 7 Does the state regulatory authority require a copy of the Denial from the NANPA or the Pooling Administrator?
(Y = yes or N = no)
- 8 If a service provider anticipates a denial, can the service provider come directly to the commission to file a waiver application w/o first applying to the NANPA/PA? (Y = yes or N = no)
- 9 Does the state regulatory authority require a copy of the customer order if the waiver request is to satisfy a specific customer need? (Y = yes or N = no)

NOTES:

NOTE A – To date, the Louisiana PSC has addressed petitions following NANPA denial and, after review, has sanctioned the issuance of additional numbers.

NOTE B – The FCC orders suggest state regulatory authority’s involvement should begin only after a request has been made through NANPA and the request has been denied. We have no reason to believe the Louisiana PSC will act in any manner other than what has been done procedurally with respect to the previous carrier requests.

These are informal comments only and should not be considered to be legal requirements or guidelines. Please contact each state commission to clarify actual process.
