Subject: NANP-Split of 313 (Michigan) Numbering Plan Area (NPA)

We have been advised by Ameritech that substantial number growth in the Detroit area of Michigan necessitates providing area code relief for the 313 NPA. The relief plan calls for a geographic split of the 313 NPA and the simultaneous introduction of a new 734 NPA. The following is a description of this relief plan.

Detroit and the inner suburbs will retain the 313 NPA while the exchanges outside of Detroit, including Ann Arbor, Livonia, Wayne, and Ypsilanti, will receive the 734 NPA.

The split of the 313 NPA, and the beginning of a permissive dialing period, will take place at 12:01 AM Eastern Standard Time (EST) on Saturday, December 13, 1997. The permissive dialing period will end at 12:01 AM EDT on Saturday, July 25, 1998. During the permissive dialing period, either the 313 or 734 NPA code will be acceptable in a dialed number terminating in the new 734 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to intercept.

The attached map illustrates the 313 and 734 NPA configuration after the split. Also attached are listings of the assigned central office codes (NXXs) and the communities in the 313 and 734 NPAs after the split. The NXX information is effective as of May 21, 1997. Since NXX information may change over time, updated NXX information may be found either in the Local Exchange Routing Guide (LERG) or the NPA NXX Activity Guide (NNAG). Current information in the LERG and NNAG is available by license contract from Bellcore's Traffic Routing Administration (TRA) group, which can be contacted by dialing the TRA Hotline at 908-699-6700.

All international and domestic carriers are asked to ensure that the new 734 NPA has been activated throughout their networks prior to December 13, 1997. Test calls to verify routing to the new NPA can be made by dialing 734-457-0148, effective November 22, 1997. It is not expected the test number can be reached from outside the 313 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test number will be disconnected at the end of permissive dialing on July 25, 1998.

The dialing plan for the 313 and 734 NPAs will be as follows:

- All home NPA (HNPA) local calls will be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits).
- All home NPA (HNPA) toll calls, i.e., calls that generally incur an extra charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).

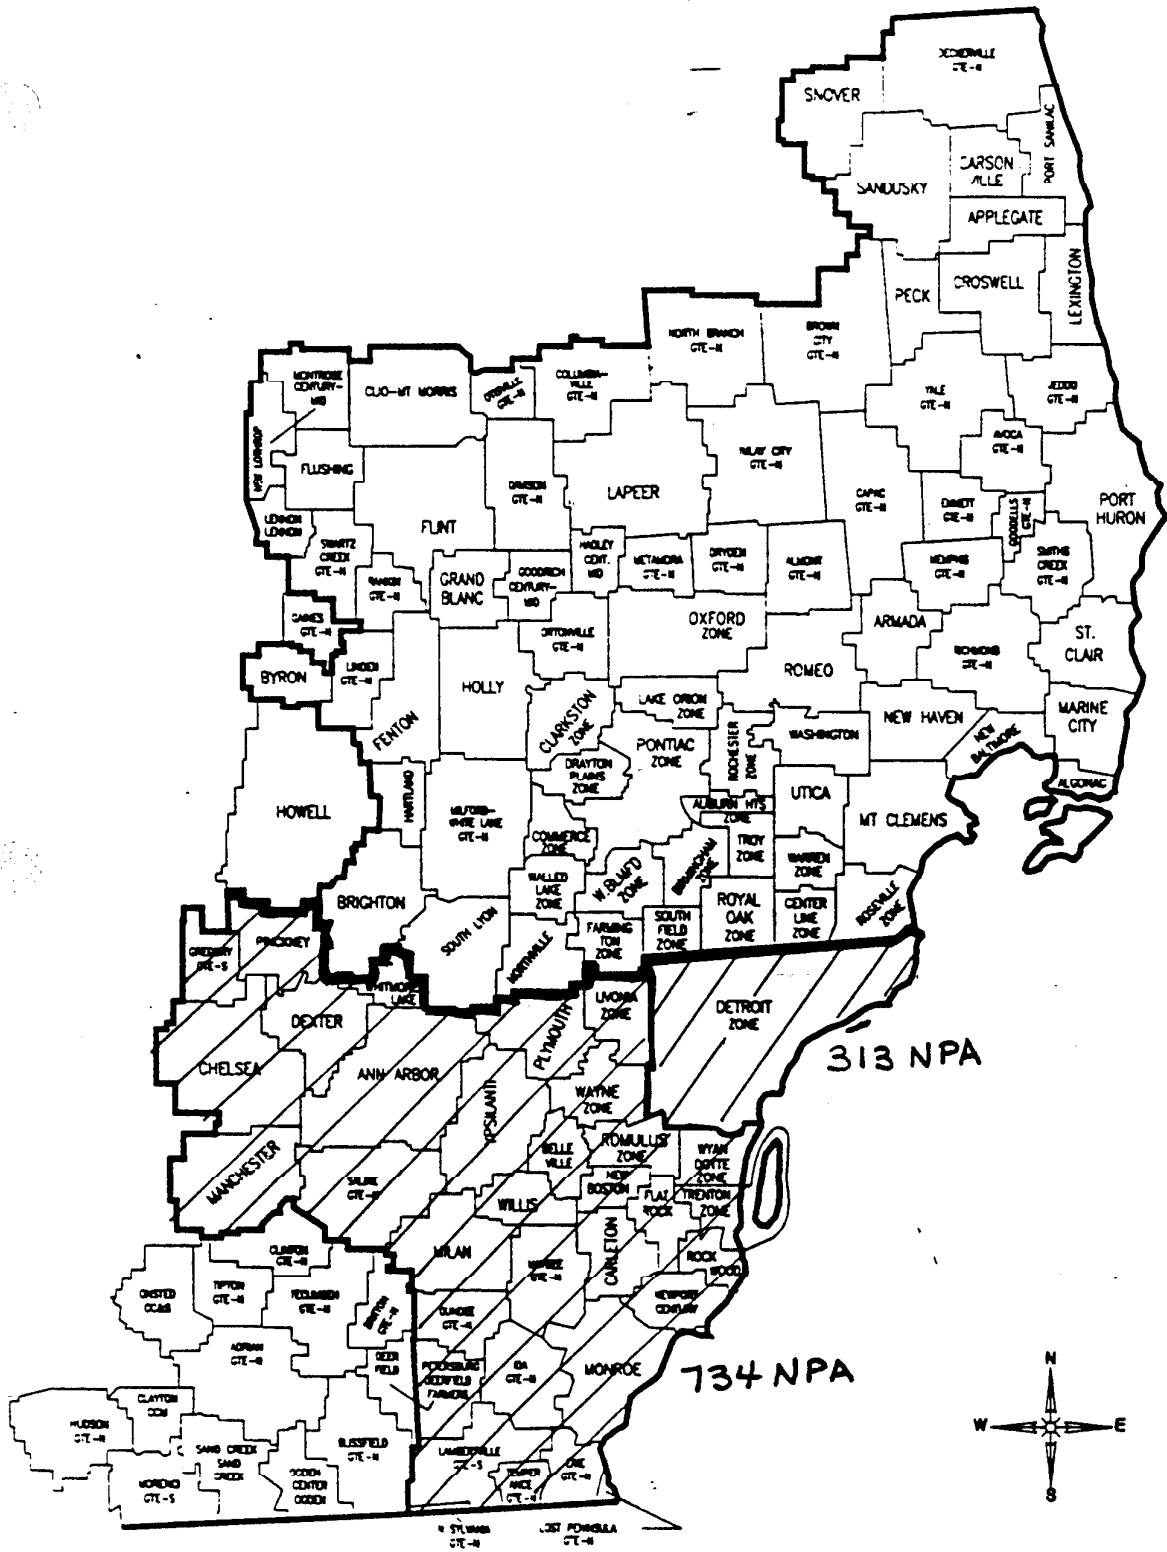

- All foreign NPA (FNPA) local calls and toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

General questions concerning the split of the 313 NPA may be directed to Burke Gaddis, relief coordinator, Ameritech, at 313-983-8411.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 908-699-6612.
