

## North American Numbering Plan Planning Letter

Number: PL-NANP-076  
Date: July 17, 1997  
From: J. N. Deak - NANP Administration  
732-699-6612, jdeak @ notes.cc.bellcore.com  
Subject: NANP-Split of 514 (Quebec) Numbering Plan Area (NPA)

---

We have been advised by Bell Canada that substantial number growth in the Montreal area of the province of Quebec necessitates providing area code relief for the 514 NPA. The relief plan calls for a geographic split of the 514 NPA and the simultaneous introduction of a new 450 NPA. The following is a description of this relief plan.

Montreal Island, Ile-Bizard, Ile-Perrot, Ile-des-Soeurs, Ile-Notre-Dame, and Ile-Sainte-Helene will retain the 514 NPA while the remaining portion of the existing 514 NPA will transfer to the new 450 NPA.

The split of the 514 NPA, and the beginning of a permissive dialing period, will take place at 02:00 AM Eastern Daylight Savings Time (EDT) on Saturday, June 13, 1998. The permissive dialing period will end at 02:00 AM EST on Saturday, January 16, 1999. During the permissive dialing period, either the 514 or 450 NPA code will be acceptable in a dialed number terminating in the new 450 NPA. After the permissive period, all calls dialed with the incorrect NPA code will be routed to a recorded announcement and will be blocked.

The attached map illustrates the 514 and 450 NPA configuration after the split. Also attached are listings of the assigned central office codes (NXXs) in the 514 and 450 NPAs. The NXX information is effective as of May 29, 1997.

All international and domestic carriers are asked to ensure that the new 450 NPA has been activated throughout their networks prior to June 13, 1998. Test calls to verify routing to the new NPA can be made by dialing one of two test numbers, i.e., 450-443-2836 or 450-443-2739, effective November 1, 1997. It is not expected the test number can be reached from outside the 514 NPA until shortly before the beginning of permissive dialing. Calls successfully completed to the test number will receive a recorded announcement. The test numbers will be disconnected at the end of permissive dialing in September, 1998. In the event that calls cannot be successfully completed to the new NPA, a special Command Center will be available for the implementation period and may be contacted at 1-888-450-4509.

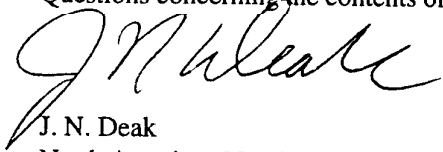

The dialing plan for the 514 and 450 NPAs will be as follows:

- All home NPA (HNPA) local calls may be dialed on a 7-digit basis, i.e., NXX-XXXX (7 digits), or on a 10-digit basis without a prefix, i.e., HNPA + NXX-XXXX (10 digits), as desired.
- All HNPA toll calls, i.e., calls that generally incur an extra charge, will be dialed with a prefix "1" and 10 digits, i.e., 1 + HNPA + NXX + XXXX (1 + 10 digits).
- All foreign NPA (FNPA) local calls will be dialed on a 10 digit basis without a prefix, i.e., FNPA + NXX + XXXX (10 digits).

- All foreign NPA (FNPA) toll calls will be dialed with a prefix "1" and 10 digits, i.e., 1 + FNPA + NXX + XXXX (1 + 10 digits).
- All operator assisted calls, including credit card, collect, and third party calls, will be dialed with a "0" prefix and 10 digits, i.e., 0 + NPA + NXX + XXXX (0 + 10 digits).

General questions concerning the split of the 514 and 450 NPAs may be directed to the Project Manager, Yves Langlois, Bell Canada, at 514-870-5264. Questions regarding code administration should be directed to Ken N. Wigne, Bell Canada, at 519-663-7461. Technical questions should be directed to the NPA Network Project Coordinator, Pierre Marcoux, Bell Canada, at 418-682-4965.

Questions concerning the contents of this letter may be referred to Jim Deak, Bellcore, at 732-699-6612.
